COACH LADY DENILY

At Legendary Trading Academy, our mission has always been bigger than trading.

Our goal is to impact 1 million Filipino lives by spreading financial literacy and teaching trading as a legitimate skill that can create opportunity, independence, and generational change.

For too long, many Filipinos have believed that income can only come from employment. But through education and discipline, trading can become another path, a skill that allows people to participate in the global financial markets and take control of their financial future.

Every graduate of Legendary Trading Academy is not just a student who completed a course. You are now part of a mission.

A mission to normalize trading as a source of income in the Philippines.

A mission to spread knowledge, responsibility, and financial awareness.

A mission to prove that with the right education, Filipinos can compete in the global markets.

May the knowledge you gained here not only change your life, but also inspire others around you.

The impact we create will not be measured only by profits, but by the lives we transform along the way.

Together, we move closer to impacting 1 million Filipino lives.

COACH ERICKA CASAS

This year has been a powerful reminder that growth is never accidental, it is built through discipline, consistency, and the systems that support every step forward.

As Chief Operating Officer, I have had the privilege of witnessing not just the outcomes, but the work behind the scenes, the late nights, the continuous improvements, and the commitment to delivering a better learning experience for each and every one of you. From refining our processes to strengthening our programs, every effort was made with one goal in mind: “to serve you better”.

But more than anything, what makes this academy truly “legendary” is you. Your dedication to learning, your willingness to grow, and your courage to take action are what bring our mission to life.

As you move forward in your journey, remember that success is not just about big wins, but about showing up consistently, trusting the process, and staying committed even when it gets challenging.

I am proud of all of you for choosing growth over comfort, and for having the courage to take action toward becoming a better version of yourselves.

The journey ahead may be challenging, but it is real, and it is possible.

Stay consistent, stay grounded, and trust that your efforts will turn into the life you’re working for.

COACH JEF RAMON

ONSITE SENIOR COACH & LEARNING
AND DEVELOPMENT HEAD

My Dear Legos,

Let's talk for a moment, shall we?

I've been thinking about why I call you that—Legos. It started as a silly nickname, but the more I sit with it, the more it fits.

A single Lego piece? Small. Easy to overlook. Doesn't look like much on its own. But start connecting them—find the right fit, build alongside others—and suddenly you have something sturdy. Something that can hold weight. Something that lasts.

That's this community. That's what you built together.

I've long since accepted that my role is one that creates an impact. I made peace with that a long time ago. But here's what I've learned more recently: I've learned to respect that impact even more every time I engage with every person I encounter.

Because you're not just students to me. You're the quiet ones who eventually found your voice. The ones who stayed after class to help a struggling batchmate. The ones who sent screenshots at midnight with nothing but "SIR, KUMITA NA AKO!!!" in all caps.

This is why I always highlight the impression we leave on each other. Charts reset. Setups fail. Markets do whatever they want. But the way you made someone feel when they were about to quit? The way you celebrated someone else's win like it was your own? That stays. That becomes part of who they are.

I cannot be more thankful for how you've all given me a sense of pride at every single time you showed up better than yesterday.

Sabi ko nga: "Malamang matagal na akong diagnosed with high blood if only for how much nakakataba ng puso seeing you all grow beyond their own imagination."

It's true. Watching you transform—from doubt to confidence, from confusion to clarity—has been the greatest part of this job.

"It's not what it is, but what it can become."

You walked in as students. You're leaving as Legos. Pieces of something bigger. Connected. Strong. Ready to build whatever comes next.

Thank you for letting me be part of your story.

I am here. Always.

Jef Ramon

Trainer. Trader. Your friend, first and foremost.

To our dear graduates of Legendary Trading Academy,

Congratulations on this meaningful milestone. Your journey is a reflection of discipline, resilience, and the courage to keep learning through every challenge.

As you move forward, always remember to Trade Smarter, Not Harder — because true success in trading comes not from doing more, but from doing what is right with wisdom, strategy, and discipline.

At Legendary Trading Academy, we do not just teach trading — we teach financial freedom. We believe trading is not only about profits, but about creating opportunities, building independence, and empowering you to take control of your financial future. Keep growing, keep believing, and keep pursuing your goals with purpose and passion.

I am proud of all that you have achieved and excited for the bright future ahead of you.

Congratulations, Graduates!

Dear LTA students,

The market will test your patience, discipline, and mindset in ways you may not expect. There will be losses, doubts, and moments that challenge your confidence—but these are all part of the journey. Trading is not just about making profits; it is about learning how to stay patient, remain disciplined, and keep a strong mindset no matter the situation.

Master these three, and success will follow. Growth takes time, but every experience helps shape you into a better trader. I am proud to guide traders who are willing to learn, improve, and dare to grow.

SENIOR COACH

To all the Alumni of Legendary Trading Academy,

Your journey with Legendary Trading Academy may have started in a classroom, a webinar, or a training session, but your real journey began the moment you stepped into the financial markets.

Forex trading is more than charts, indicators, and strategies. It is a journey that tests your discipline, patience, humility, and perseverance. The market will challenge you, stretch you, and sometimes even humble you—but these moments are part of the process that shapes you into a stronger and wiser trader. Always remember that the knowledge you received from Legendary Trading Academy is not just a skill—it is a stewardship and a responsibility.

With the right mindset and discipline, trading can become a tool not only for financial growth but also for creating opportunities, supporting your family, and becoming a blessing to others.

But above all, never forget the most important foundation of your journey: God.

The markets move because of global events, economic decisions, and human behavior—but our lives move according to God's divine purpose and guidance. When trading becomes challenging, do not rely only on your analysis—seek wisdom from the Lord. When profits come, remain humble and give thanks. When losses happen, remember that every setback carries a lesson that strengthens your character.

The Bible reminds us in Proverbs 16:3: "Commit to the Lord whatever you do, and He will establish your plans."

As alumni of Legendary Trading Academy, continue to sharpen your knowledge, protect your capital with discipline, and grow in wisdom. Let your trading journey reflect not only financial excellence but also integrity, humility, and faith.

You are part of a community of traders who believe that success is not measured only by profits, but by character, discipline, and the ability to uplift others. Continue learning. Continue growing. Continue trusting God.

And remember—legendary traders are not made overnight. They are built through perseverance, discipline, and faith in the journey that God has placed before them. Stay disciplined. Stay humble. Stay faithful. The journey continues.

LEARNING EXPERIENCE APPLICATION AND DEVELOPMENT

Our Dear Alumni,

Alam niyo, habang tinititigan ko ang blangkong papel na ito, bigla kong na-realize:

Parang utak ko 'to during a losing streak — maraming gustong sabihin, pero puro "WAG MUNA" ang lumalabas.

But here goes... To each and every one of you — those who walked into class with coffee in one hand and determination in the other, those who joined Zoom calls while secretly nursing a headache from a long day at work, those who asked "pero bakit?" a hundred times until the concept finally clicked — thank you. Thank you for showing up.

And I don't just mean showing up physically. I mean showing up fully. Showing up with your questions, your doubts, your breakthroughs, your "ah eto na yung setup na hinihintay ko" moments, and yes — even your "nalugi ako pero babawi ako" stories. You showed up with your whole selves, and that changed everything.

On behalf of the entire Learning and Development team — the instructors who stayed late to answer "one last question," the mentors who replied to panicked Viber messages at 10 PM, the support staff who made sure your modules were ready before you even walked in — we see you. We have always seen you.

You kept us grounded. There were days when we were tired, when we had delivered the same lecture a hundred times, when the charts all looked the same. And then you would walk in — with that fire in your eyes, with that hunger to learn, with that willingness to fail forward — and suddenly, it felt like Day 1 again. Suddenly, we remembered why we do this.

You reminded us of our primary directive: to make learning not just effective, but enjoyable. To turn complex concepts into conversations. To turn trading education into a shared journey rather than a lonely grind.

More than just teaching you how to read charts, how to spot optimal setups, how to manage risk — you taught us how to be better teachers. Every question you asked forced us to simplify. Every confusion you voiced forced us to find new ways to explain. Every breakthrough you celebrated became our celebration too.

And somewhere along the way, something beautiful happened.

We stopped being just instructors and students. We became kakampi. We became sounding boards for each other's fears and dreams. We became the people who would cheer when someone finally nailed that entry they'd been waiting weeks for. We became the community that would show up — not just for the wins, but for the losses too.

You built genuine connections that transcend the walls of this academy. I've seen batchmates become business partners. I've seen study groups formed during crash courses turn into lifelong friendships. I've seen alumni show up to support newer students simply because "may nakatulong sa akin noon, gusto ko ring tumulong."

That is the legacy you leave behind. Not just profitable trades — though we pray for those in abundance. But a culture. A family. A standard of what it means to learn together.

As you step out into the real world of trading — with real money, real emotions, real consequences — please know that this will always be your home base. Our doors are always open. Our inboxes are always ready for your "sos nakita ko 'to, ano sa tingin niyo?" screenshots. Our hearts are always here, rooting for you.

We cannot wait to see what you become. We cannot wait to hear your success stories. We cannot wait to have you come back as guest speakers, as mentors, as living proof that this works.

Because at the end of the day, "It's not what it is, but what it can become."
And you — each and every one of you — are the most beautiful proof of that.

Maraming, maraming salamat. Mula sa buong Learning and Development team.

FACE-TO-FACE STUDENT COOR

As a student coordinator, one thing I'll always remind you is this: protect your capital first. Before jumping from one strategy to another, learn to stay, stick to one, refine it, and truly understand how it works.

Mastery doesn't come from doing everything, but from doing one thing consistently and simply. In a world full of complex systems, the simplest strategy you can execute well will always take you further.

More paldo to come mga ka-legends. And God bless!

As your online student coordinator, let me remind you of something important, discipline will always outperform hype.

You don't need to chase every new strategy you see online. What you need is consistency. Stay with one system, practice it daily, and learn from every win and loss. The market rewards those who are patient enough to trust their process.

Remember, it's not about how many strategies you know, but how well you execute the one that works for you. Keep it simple, keep it consistent, and keep improving.

Malayo pa, pero malayo na. More wins ahead, legends.

MARKETING DEPARTMENT

RAINYEAL CASAS
MARKETING HEAD

Being part of Legendary Trading Academy is more than just a role—it is a responsibility to help shape a community driven by growth, discipline, and purpose. As the Marketing Head, I have had the privilege of witnessing how powerful a shared vision can be when people come together with the same goal: to learn, to improve, and to pursue financial independence through trading.

This year has been a testament to the strength of the LTA community. From our students who continuously challenge themselves to learn the markets, to our mentors and team members who tirelessly share their knowledge and guidance—every milestone we achieved was a result of collective passion and dedication.

Marketing, at its core, is about telling stories. And the story of LTA is not just about trading strategies or market wins. It is about transformation. It is about individuals who chose to believe in themselves, who turned uncertainty into opportunity, and who committed to mastering both the markets and their own mindset.

To every student featured in this yearbook, remember that your journey does not end here. This is only one chapter of a much bigger story. Continue to stay disciplined, remain humble in success, resilient in challenges, and always committed to learning.

As we look ahead, I am confident that the future of Legendary Trading Academy will continue to grow stronger—not only as a trading institution, but as a community that empowers individuals to take control of their financial future.

Thank you for being part of this journey. The best trades—and the best chapters—are still ahead.

Hi Legends,

Honestly speaking, trading is not easy, but it can give you time and financial freedom if you stay committed and disciplined.

I started this trading journey with zero knowledge. Wala talaga akong idea about trading before — all I knew was that I wanted to seize the opportunity when someone gave me the chance to learn. I took the training seriously and made sure to absorb everything that the LTA coaches shared.

Hindi ko inakala na sa ganitong kaikling panahon, from zero knowledge to becoming a profitable trader — mangyayari pala sa akin.

I am Jhanrex Bucas, IE, CTA and I am the LTA Automation & Intelligence Department Head. But just like many of you, I also started as a beginner who was willing to learn and grow.

This journey made me realize that if you truly want to change your life, you have to change what you are doing.

Trading is not easy — but it is possible. With the right mindset, proper guidance, and consistency, progress will follow.

See you all at the top, Legends.

STUDENT SUCCESS DEPARTMENT

Our Dear Legends,

Your graduation from Legendary Trading Academy marks a meaningful milestone, but it is not the end of your journey, **IT IS ONLY THE BEGINNING OF A GREATER ONE.**

At the Student Success Department, we believe that every student who walks through the doors of LTA is like a seed being planted. Throughout your time in the academy, you were nurtured with knowledge, discipline, and guidance. But just like a seed, the real growth happens after you leave the soil where it was first planted. Our hope is that each of you will grow into a strong and resilient tree, rooted in discipline, strengthened by experience, and capable of standing firm in the challenges of the trading world.

Trading is more than charts and strategies. It is a lifelong journey of learning, patience, emotional control, and continuous self-improvement.

As you move forward in your trading journey, we hope that the lessons you learned in LTA will continue to guide your decisions and shape the trader you are becoming.

More importantly, we hope you will always remember the mission of Legendary Trading Academy to impact one million Filipino lives through financial education and disciplined trading. That mission begins with our students. Each of you has the potential to influence others, to inspire responsible trading, and to share the knowledge that you have gained.

Even after graduation, the Student Success Department remains here for you. Our role does not end when you complete the program. We continue to support, guide, and celebrate your progress as you grow in your trading journey.

Once a student of LTA, always part of the Legendary community.

PROGRAM EXPANSION & PRICING ALIGNMENT

Throughout the year, LTA expanded the training hours of both Face-to-Face and Online programs. As shown in the charts, every level — from **Freshman to Senior** — increased in duration, with Senior classes experiencing the largest growth.

As the programs evolved, pricing was adjusted to reflect the added value.

Tiered Pricing Overview

Q1 Pricing

Freshman: \$49 (Online & Face to Face)

Sophomore: \$199 + \$199 misc. fee

Junior: \$199

Senior: \$399

The pricing changes were directly aligned with the increase in training hours and the improvement of curriculum depth.

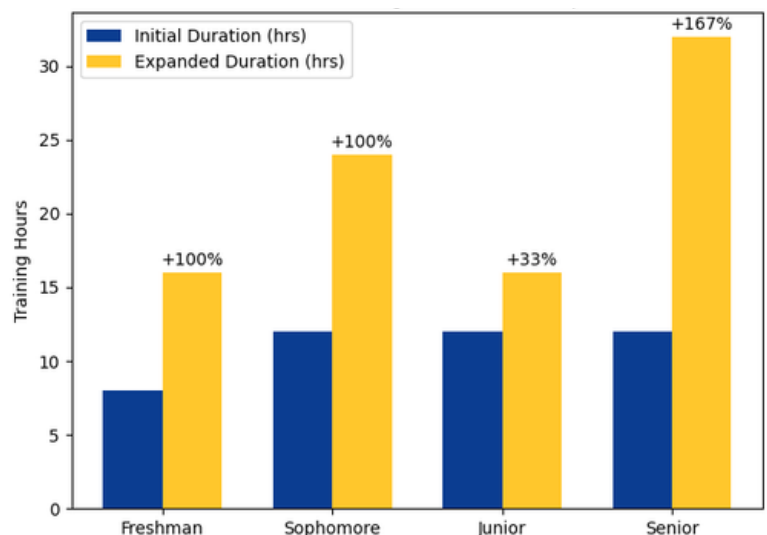

As the value of the programs grew, the pricing reflected that growth.

This evolution represents LTA's commitment to continuous improvement and delivering stronger learning experiences each quarter.

ONLINE CLASS

FACE TO FACE CLASS

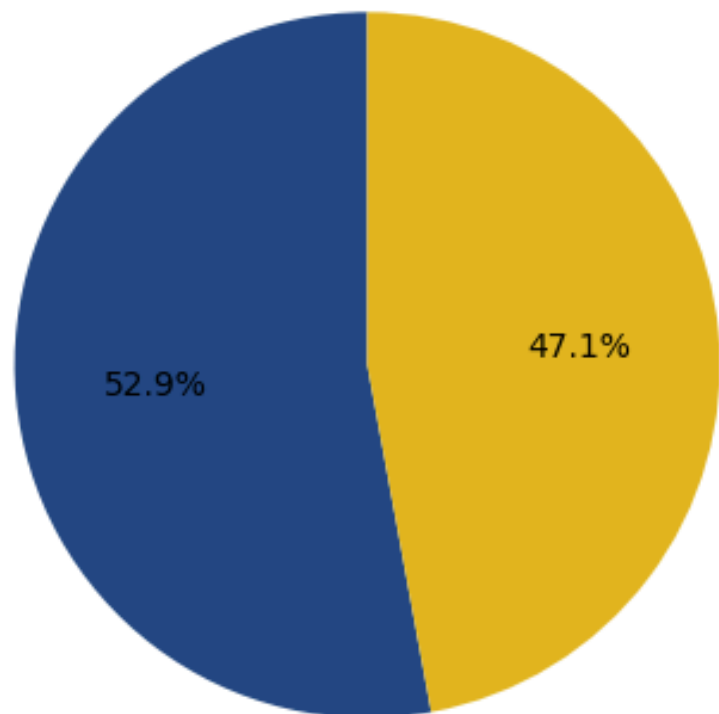

REVENUE COMPOSITION & DELIVERY MODEL STRENGTH

Balanced Growth Across Learning Channels

In 2025, Legendary Trading Academy demonstrated strong revenue balance across its two primary delivery formats — Online and Face to Face Classes.

- **Online Class: 52.9%** of total revenue
- **Face to Face Class: 47.1%** of total revenue

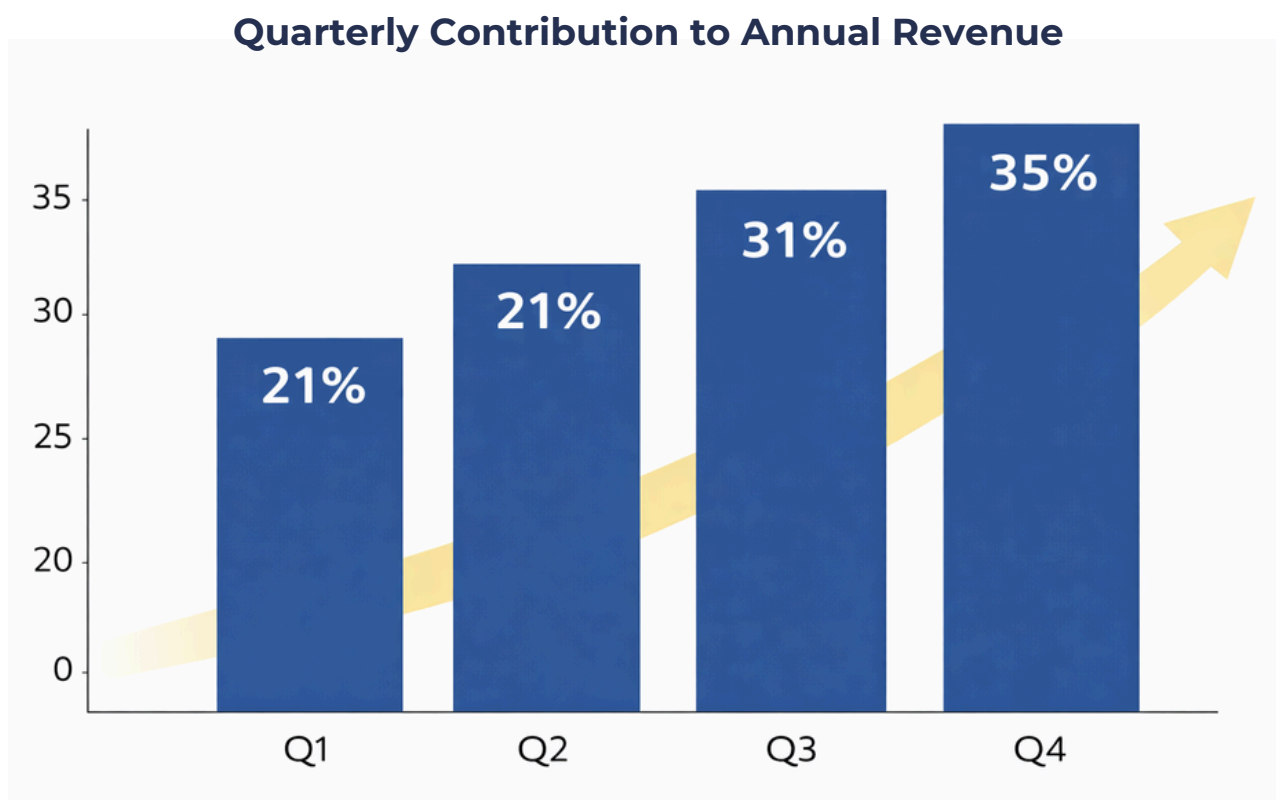

This distribution reflects strategic operational maturity. Rather than relying on a single channel, LTA successfully sustained strong demand across both digital and in-person learning environments.

- Strong national accessibility through online platforms
- Sustained value perception in live classroom experiences
- Operational flexibility and scalability
- Market trust in both learning formats

QUARTERLY GROWTH & PERFORMANCE MOMENTUM

Progressive Revenue Acceleration

- **Q1 – 12%** Foundation building and enrollment stabilization
- **Q2 – 21%** Strategic pricing alignment and revenue strengthening
- **Q3 – 31%** Scaling efficiency and sustained momentum
- **Q4 – 35%** Peak operational execution and record-setting close

Each quarter outperformed the previous one, reflecting disciplined execution, improved sales systems, and strengthened internal coordination. The upward trajectory signals **operational maturity** — not seasonal luck, but strategic progression.

MARKETING PERFORMANCE OVERVIEW

HIGH-PERFORMANCE ORGANIC INFRASTRUCTURE

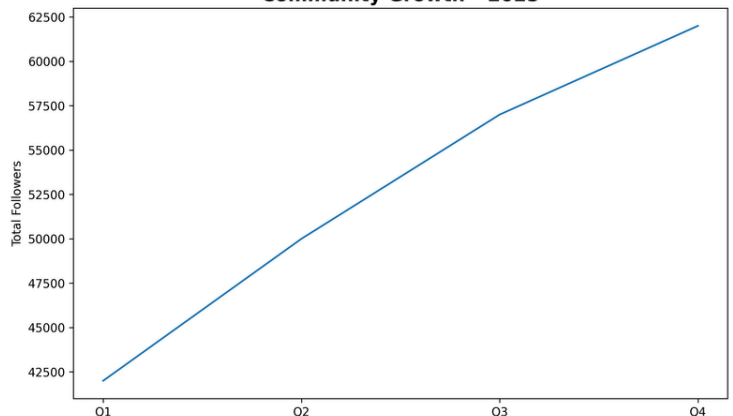

In 2025, LTA generated nearly 15 million total views, with 98% driven organically and only 2% attributed to paid advertising. This confirms that LTA's digital presence is powered by algorithm trust, content relevance, educational authority, and community-driven amplification — not advertising dependency.

By year-end, the community exceeded 62,000 followers, primarily within the 25–44 age range — financially active individuals aligned with the institution's mission of income growth and skills development.

- Educational webinars and free classes

TRAIN THE TRAINERS

The Train the Trainers program shows LTA's commitment to developing not only skilled traders, but also effective mentors. Through continuous training, our trainers deepen their market knowledge, refine their strategies, and improve their teaching and coaching skills. By investing in our trainers' growth, LTA ensures that every student receives quality guidance and structured, experience-based learning.

FACULTY MEETING

We also conduct regular faculty meetings to ensure alignment, collaboration, and continuous improvement within the team. These meetings serve as a platform to discuss updates, review student progress, share insights, and improve teaching strategies. Through open communication and teamwork, we strengthen our standards and make sure that every class delivers consistent, high-quality learning for our students.

TRAIN THE TRAINERS WITH LEGENDARY JAPAN

We also conducted a Train the Trainers program for Legendary Japan to ensure consistent and high-quality training across branches. The program focused on strengthening market knowledge, refining strategies, and improving teaching skills. Through this initiative, we maintained unified standards and effective mentorship in developing disciplined traders.

TOWNHALL

We also hold townhall meetings, called Legendary 2.0, where the entire LTA community comes together to connect, share, and reflect on our journey. These events provide important updates, celebrate achievements, award hard work, discuss ways for improvement, and share upcoming plans, all while encouraging open communication between students, staff, and leadership. IV. The LTA Student Journey

THE JOURNEY TO LEGENDARY STARTS NOW.

FROM ORIENTATION

In March 2025, LTA improved its class process by adding a structured Orientation before the official start of training.

This ensures that students are fully prepared with their broker accounts ready, LTA portal access activated, and Facebook and Telegram accounts properly connected.

The goal is simple: start organized, start ready.

TO THE WALL OF LEGENDS

After graduation, each student takes part in a Pinning Ceremony, where their photo is proudly placed on the Wall of Legends.

It is more than a simple tradition. It is a moment of honor, a recognition of the discipline, sacrifices, late nights, and commitment they showed throughout the program. Seeing their photo on the wall is a reminder that they did not just enroll... they finished.

It marks the completion of their journey as a student and the beginning of their legacy as a proud LTA graduate.

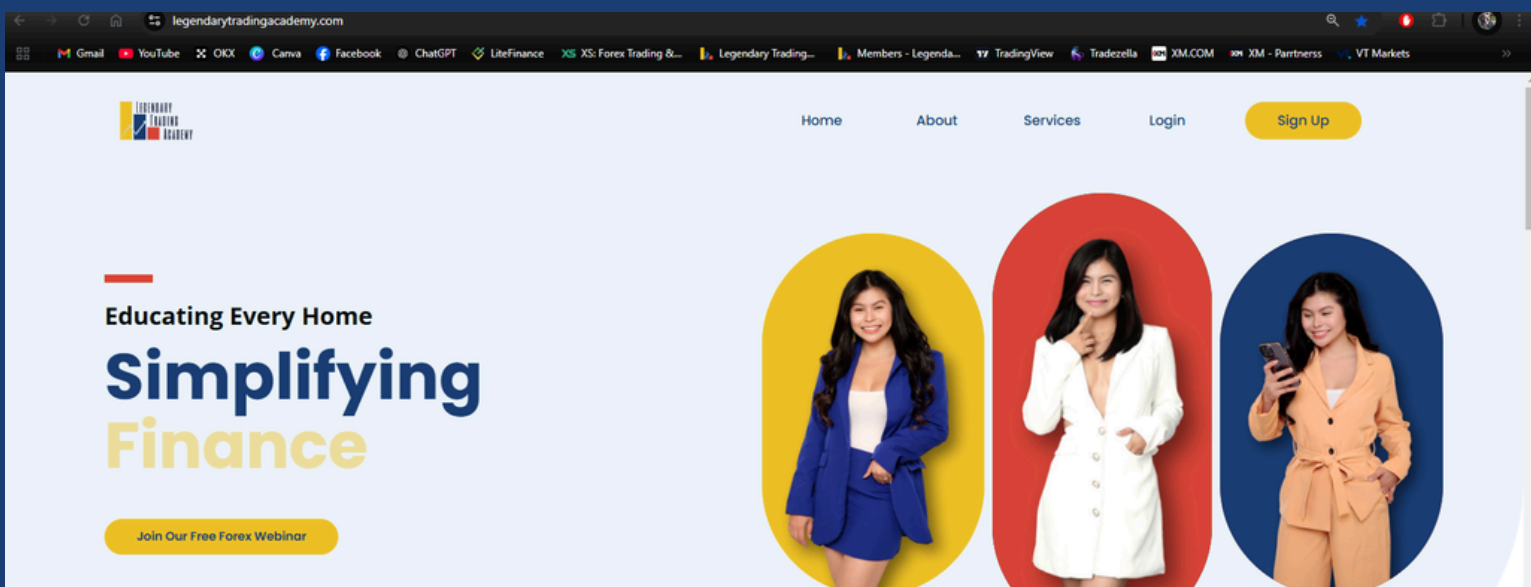

LTA PORTAL

Launch

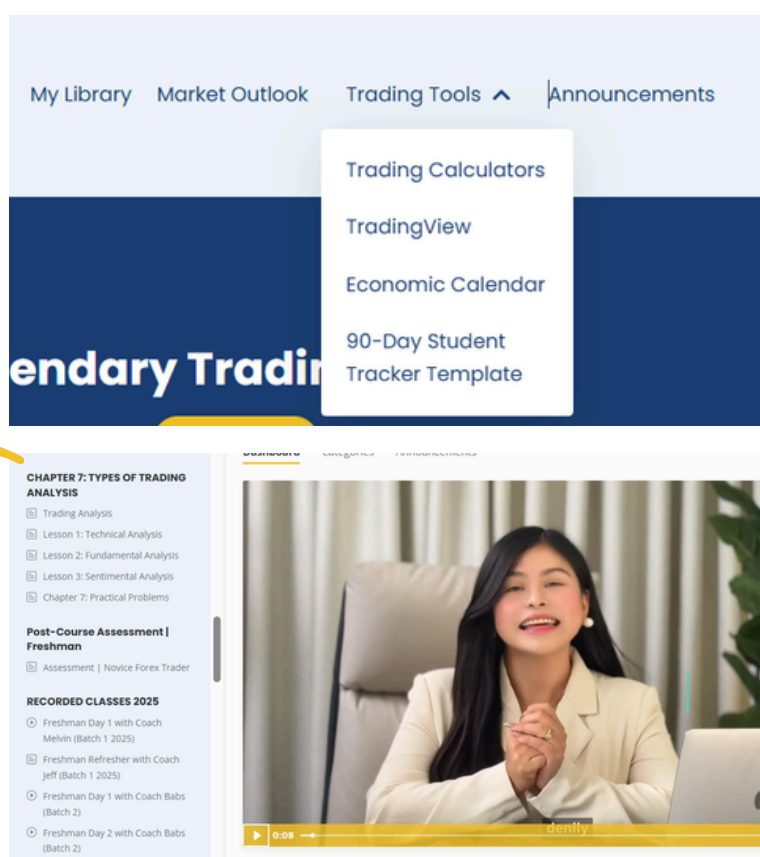

In 2025, we proudly launched the LTA Portal — a milestone that many of you helped make possible.

This platform was created to give you a more organized, accessible, and complete learning experience — even beyond the classroom.

Inside the portal, you can find:

- **Trading Calculators** to help you plan and manage risk with precision
- **90-Day Trading Tracker** to monitor your progress and build discipline
- **Recorded Online Classes** so you can revisit lessons anytime and continue improving

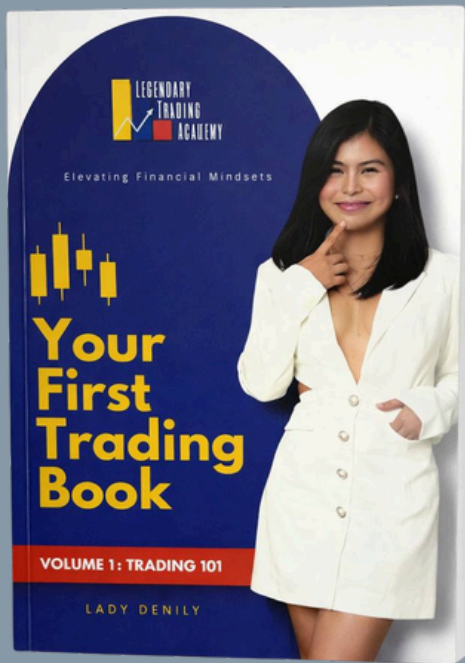

To our alumni, this portal represents our commitment to your growth — not just while you were students, but even after graduation.

Your journey doesn't end in the classroom. And with the LTA Portal, your tools for growth are always within reach.

Enrolling in Legendary Trading Academy was one of the best decisions I've made for my trading journey. The program offers a perfect balance between technical analysis, trading psychology, and real-time market insights. The instructors truly know what they're doing, they don't just teach theory, they show you how to apply it in live markets with discipline and confidence. Thank You LTA

I have been trading since last year! Eaconomy pa nun LOL but its really hard to learn there. I am very happy and grateful I enrolled to LTA! Goshhhh! Before nag wi'withdraw lang ako ng \$100-300 but now na tapos na senior at na apply na mga natutunan sa coaches! Danmmmm! Na'try din makapag withdraw ng \$2000 LOL. Thank you coach lady and to all coaches who gave me knowledge about trading. This is for LIFE!!! Thank you coaches!

- **Cynthia Dianne Liban**

Everything you need to know about trading and even investing sa stocks, nandito na sa LTA. Sa freshman course palang very worth it na dahil lahat ng need mo malaman as a beginner, matututunan mo. syempre, course alone won't make you profitable; consistency, trust, patience, commitment, and application of everything na matututunan mo sa course ang key to be a profitable trader and while learning, you can earn enough already thru signals na binibigay ni coach syempre sasamahan mo ng risk management thru proper lot sizing and entries. Investing sa knowledge is truly worth it.

- **John Jordan Esquivel**

What it is like enrolling in LTA?

Based on my experience as an online student, eto yung mga pinaka nagustuhan ko sa pag join ko ng community:

1. Step by step ituturo nila ang pinaka basic sa trading until sa advanced analysis/strategies. From Freshman, ituturo nila ang basic terminologies, risk management, etc. Sophomore yung pinaka favorite ko dahil dito nila ituturo yung Technical Analysis. Junior, is all about fundamental analysis and sa Senior naman ang mga advanced learnings na.

2. Hindi lang basta basta dinidiscuss nila ang mga lessons kundi hinihimay himay ng mga coaches para maexplain lahat and they make sure everyone understands the lesson.

3. Yung community. Sinisigurado ng LTA that no one is left behind. Yung mga coaches namemessage mo sila anytime and they make sure to answer sa mga questions niyo. Kahit tapos na yung lesson at kung may hindi ka naintindihan, iexplain nila ulit sayo if you just ask them.

4. Yung online portal na pwede mong balik balikan kung gusto mong marefresh sa mga lessons.

And finally yung pinaka nagustuhan ko sa LTA is yung pinaramdam nila yung security. Secured in way na I am well equipped, knowledgeable and kargado na sa learnings.

Andami kong natutunan sa LTA. Ang trading hindi lang pala siya basta buy and sell. Madami kang kailangan aralin at iconsider para maging profitable trader ka and LTA is there to educate you. If you will ask me: "Is it worth it?" YES. Sobrang worth it. Dahil kahit tapos mo na yung courses, hindi ka nila papabaya. Eto na yata yung pinaka worth it na investment ko para sa sarili ko. To enroll, and be educated. Sabi nga nila, lamang ang may alam.

Gusto ko din magpasalamat kay Coach Lady for creating this community, I hope you continue your mission to help others to be financially educated. Sobrang pure po ng puso niyo. Kay Coach Melvin na super galing at sobrang aliw magturo. Coach Jimuel, thank you sa patience mo sakin. Coach John thank you po sa learnings regarding fundamental analysis and thank you Coach Babs sa pag turo samin sa freshman course. Mahirap po mag aral online pero dahil po sa inyo, naging mas mabilis at madali ang pag intindi sa mga lessons namin.

In LTA, I just didn't join a new community, but I've gained a new family

- **Thor Re Campo**

Favorite Key takeaways from class: Almost everything ng tinuro, lahat maganda lalo na ang wyckoff(dito ko lang sa LTA natutunan and super effective sya sa price action), and combination of TA+FA, paldo ka talaga!

what I love most about LTA:

1. Yung magppresent ka ng trades mo then ipapakita mo yung strategies na ginamit mo, dun mo malalaman yung mga need to develop pa kasi mag iinput yung mga coaches kung pano pa mas maiimprove yung strategies na ginamit mo.

2. Unli coaching once na graduate ka ng LTA

3. Free gold signals yung pinang enroll mo pwede mo maROI agad

Do I recommend LTA?

YES OF COURSE! Sobrang solid ng mga coaches, and may mga books pa+online platform na pwede mo balik balikan yung lessons na natapos na.

- **Ma. Fatima Umali**

My favorite takeaway from my trading class is the importance of having a well-defined trading plan and the discipline to follow it consistently. It made me realize that success in trading isn't just about strategy, but also about mindset and risk management.

Naging confident ako sa aking mga trades since i started my journey with LTA.

Thank you sa guidance at support! Na-appreciate ko yung patience niyo at pag-explain ng strategies step by step. Malaking tulong yung actual chart analysis at real-time feedback sa trades ko. Highly recommended ang LTA, sulit ang tuition fee.

- **Blenda Pascua**

- **Cheska Bano**

LTA is exceptional, they didn't just teach they made our learnings fun.

Effective ang mga coaches friendly and easily to be approached, walang gate keeping every details count. Napakaaliwalas at linis ng campus, school set up but I feel the professionalism inside, ang gaan ng aura. They made trading look easy for the students sulit ang bayad. Thanks LTA! This is not just a learning environment, but I found my home and right community.

- **Adel Landicho**

The Legendary Trading Academy stands out as an excellent space for traders to connect, learn, and grow together. It offers a wealth of valuable resources such as market insights, educational materials, and also a strong sense of collaboration and support between mentors and students that help enhance their trading knowledge and most importantly the Risk Management.

I absolutely recommend Legendary Trading Academy to those who are serious about their trading journey and also to those who are curious about this trading industry. Joining LTA is one of the things that I won't regret doing because it is not just a place to trade but a genuine community where traders help each other succeed and achieve financial freedom.

Thank You So Much LTA!

- **John Laurence A. Libag**

My favorite key takeaway from the class: Learning about risk management and trading discipline, which taught me how to protect my capital and trade smarter.

What I love most about LTA: The mentors explain everything clearly and make even complex trading topics easy to understand for beginners. They're very approachable and supportive throughout the class.

Do I recommend LTA? Yes! I highly recommend Legendary Trading Academy because it provides a strong foundation in trading and helps students gain real confidence to start their trading journey.

- **Christopher Emil Angeles**

"The best time to plant a tree was 10 years ago"

How I wish LTA has been here with us 10 years ago. But I am so grateful to them as they have come up to a decision that can really make the world change, by learning the real financial literacy, helping people to be awoken in having a financial freedom and creating a safe and healthy community. Cheers to more years Legendary Trading Academy. You made my life easier to understand that trading was not just the simple "Buy and Sell" kind of thing. If I were about to study trading all by myself, I would probably only understand trading after 3-5 years. But because of your structured plan of teaching on how to understand trading, you helped me to learn the basic to advance in just 6 months.

- **Mhai Derder**

I recommend LTA for any aspiring traders who wants to learn how to trade even with zero knowledge. I appreciate the positive learning environment they had and especially thankful for their friendly coaches. I gained more confidence in trading now and have better understanding on what to look for in a chart.

I got their full course and all i want to say is that it was really worth the money i paid for. LTA taught me both basics and advance concepts/strategies in trading which all helped me in my trading journey.

These moments strengthen camaraderie, encourage creativity, and remind everyone that while we are serious about success, we also value joy, balance, and community. Because at LTA, learning thrives best when passion and fun go hand in hand.

Ms. Jane captivated everyone with her chilling entry, earning Best in Horror Picture, while Sir Vic impressed the community with his thrilling tale, winning Best in Horror Story. It was a celebration of talent, imagination, and festive fun beyond the trading floor.

GALA NIGHT

The Gala Night held on December 5, 2025, at Century Park Hotel Manila was a night to remember! The event was filled with glitz, glamour, and excitement as every batch proudly sent their representatives to celebrate the year's achievements. Awards were handed out left and right, honoring outstanding accomplishments and unforgettable moments, while laughter and cheers filled the grand ballroom. Beyond lectures and discussions, we also held engaging classroom activities designed to strengthen both learning and connection. Through interactive exercises and fun games, students were able to apply concepts in a more dynamic way while building stronger bonds with one another. These moments of collaboration and laughter reminded us that learning isn't just about teaching—it's about shared experiences, teamwork, and growing together as a community.

Throughout the program, students progressed step by step across every course level — from learning when to buy and sell during the Freshman stage, to developing clear strategies and building strong trading defense systems in their Senior level. Each stage was carefully designed to filter, train, and prepare them, ensuring that by the end of their journey, they were not only knowledgeable but disciplined and strategy-driven traders.

Activities

ONE-ON-ONE COACHING

One of the aftersales initiatives of LTA is One-on-One Coaching, which provides students with personalized guidance to support their trading journey. Through these sessions, students are able to ask questions, clarify strategies, and receive direct feedback from coaches.

This initiative ensures that learning does not end in the classroom. Instead, students continue to receive support as they apply their knowledge, helping them build confidence, discipline, and consistency in their trading development.

GROUP COACHING

Another aftersales initiative is Group Coaching, where students participate in guided sessions together with coaches and fellow traders. This format allows students to learn from shared experiences, discuss trading challenges, and gain different perspectives from the community.

Group coaching also strengthens the learning environment by encouraging collaboration, accountability, and continuous improvement, helping students stay engaged and motivated in their trading journey.

BROKER

Competitions

We also held exciting competitions hosted by different brokers, giving students a chance to put their trading skills to the test in a real-world setting. From strategy challenges to performance contests, these events encouraged friendly rivalry, boosted learning, and showcased the talent and progress of our traders. It was a fun and engaging way for students to apply what they've learned while earning recognition and rewards for their efforts.

ALUMNI

LTA Finishers

LTA Alumni Finishers brought all our graduates together on the LTA Campus for a day of fun, learning, and reconnecting. Activities like Family Feud tested how much they remembered (and sometimes misremembered!) about trading, while open-forum discussions gave alumni a chance to share their trading journeys, insights, and experiences. It was a meaningful way to celebrate their growth and keep the LTA community strong.

VI. Community & Culture

LTA

Family

Captured on December 8, 2024, this photo marks the opening of the Legendary Campus, a milestone that represents the academy's commitment to building a stronger learning environment for future traders.

At that time, the organization was supported by a small but dedicated team consisting of 1 COO, 1 Content Creator, 1 Marketing Head, 3 Sales representatives (2 onsite and 1 part-time), 1 Coach, and 1 Utility personnel. Despite its modest size, this core team played a vital role in laying the foundation for the academy's growth and future success.

This photo was taken during a scheduled photo session for marketing materials and official identification photos. At this time, the LTA Family had grown, expanding its team to include 1 COO, 1 Marketing Head, 3 Sales representatives, 2 Telesales specialists, 2 Coaches, and 1 Utility personnel, reflecting the organization's steady growth and strengthening operations.

This photo was taken during the AVP shoot prepared for the Gala Night program. During the shoot, the team also captured a group organizational photo, highlighting the unity and teamwork behind the academy's initiatives and events.

By the end of the year, the organization had grown into six departments, consisting of 1 COO, 2 members from the Student Success Department, 1 from Marketing, 4 Coaches, 2 Student Coordinators, 1 from the Automation and Intelligence Department, 4 from the Sales Department, and 1 Utility personnel, reflecting the academy's steady growth and stronger team structure.

LTA TEAM BUILDING

We also organized an LTA Team Building event to foster stronger connections and collaboration among our staff. Through a variety of engaging activities, interactive challenges, and problem-solving exercises, team members were able to learn more about each other's strengths, improve communication, and work together more effectively. Beyond the fun and excitement, these activities reinforced our shared values, encouraged creative thinking, and strengthened our sense of unity. This experience not only boosted morale but also equipped our team to tackle challenges with greater synergy, ensuring that LTA continues to grow as a cohesive and high-performing organization.

CHRISTMAS PARTY

We also held a memorable LTA Christmas Party, a festive celebration that united the entire team in the spirit of joy and gratitude. The event featured a mix of fun games, performances, and gift exchanges, giving everyone the chance to relax, connect, and share laughter outside of the usual work routine. Beyond the entertainment, the party served as a meaningful opportunity to recognize the hard work, dedication, and achievements of our staff throughout the year. It strengthened relationships across departments, fostered camaraderie, and reinforced the values of appreciation, teamwork, and celebration that are at the heart of LTA's culture. By ending the year on such a positive and inclusive note, the Christmas Party inspired renewed energy, motivation, and a sense of unity as we look forward to the opportunities ahead.

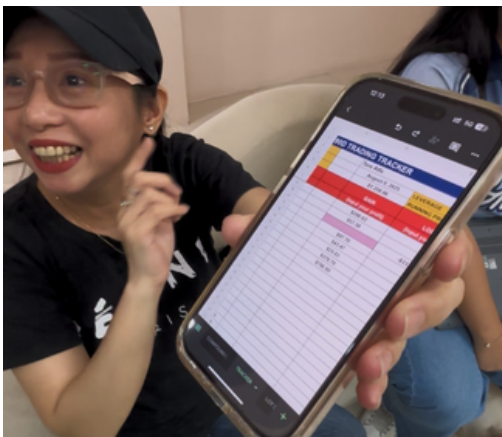

STUDENT *Visits*

From time to time, students and alumni visit the campus to reconnect with the academy and spend time with the coaches. During these visits, they are able to ask questions, review trading strategies, and gain additional insights that support their continuous improvement as traders.

These visits also create meaningful opportunities for community building, where alumni reconnect with their batchmates and fellow traders, share experiences, and discuss their progress in the markets. The campus becomes a place not only for learning but also for strengthening relationships within the trading community.

Through these moments, the bond between LTA and its alumni remains strong. Even after graduation, the academy continues to serve as a space where traders can return, collaborate, and grow together as part of the LTA community.

VII. Recognition & Achievements

GALA NIGHT

We also crowned our dazzling Gala Queen, Jemelyn Romey from Batch 1 Weekday Class, and our charismatic Gala King, Zig Black from Batch 10 Weekday Class. From inspiring words to head-turning elegance and confidence, these awardees truly ruled the evening. It was a joyful celebration of excellence, personality, and the vibrant spirit that makes our community shine.

The excitement soared as we revealed our Grand Raffle Winners, adding even more thrill to an already unforgettable night. Marlon Constantino proudly took home the 3rd Prize – Full Course, while the 2nd Prize – \$1,000 USD Trading Capital was awarded through our very own Sales Admin, Angelica Malabanan. Cheers and applause filled the room as each winner was announced, making the moment even more special.

The highlight of the raffle was the 1st Prize – Premium Trading Setup, proudly won by one of our Freshman students. It was a powerful reminder that opportunities come to those who show up and stay committed. The grand raffle truly ended the evening with excitement, gratitude, and big smiles all around.

STUDENT

Awardees

The LTA Core Values Awards became even more special as each student was recognized for embodying one of our five core values: Trust, Respect, Abundance Mindset, Discipline, and Excellence. Every award highlighted a unique strength and character trait demonstrated throughout their journey. It was a powerful reminder that success in trading and in life is not measured by results alone, but by the values we consistently live out. This recognition celebrated not just skill, but integrity, growth, and the heart behind every achievement.

LTA SCHOLARS

As part of its commitment to supporting aspiring traders, Legendary Trading Academy offers scholarship opportunities to individuals who demonstrate strong potential, dedication, and a genuine desire to learn the craft of trading. Through this initiative, the academy aims to provide access to quality trading education for those who are willing to put in the effort to grow and develop their skills.

Through the **LTA Scholarship Program**, selected scholars are given the opportunity to take the academy's **Full Course program**, allowing them to experience the complete learning journey—from foundational knowledge to more advanced trading concepts. With guidance from the coaches, scholars are able to build discipline, confidence, and a deeper understanding of the financial markets.

The scholars for this batch are **Mark Perez, Airah Estrada, and Kenneth Betita**. Each of them was selected for their willingness to learn and their commitment to improving themselves through education and training. Their inclusion in the program represents the academy's belief that with the right mindset and proper guidance, anyone can develop the skills needed to succeed in trading. Beyond providing education, the scholarship program also reflects the academy's mission of building a supportive community of traders. The Legendary Way

“ANTHEM FOR LEGENDARY TRADING ACADEMY”

[Verse 1 – Freshman Vibes]

We start with the basics, the terms and the tools
Learning the app, getting used to the rules
MT5 setup, market flow
Click, drag, trade — we're ready to go

[Pre-Chorus]

From demo to live, we're building the base
No rushing the process, we're finding our pace
Every lesson, every play
We trade the legendary way

[Chorus]

This is our time, we're ready to play
Turning passion to profit in a powerful way
From Freshman to Senior, we're paving the way
Living the dream — the legendary way!
Educating every home, changing every day
Financial freedom for Filipinos, come what may
Oh-oh-oh, we rise, we stay
Legendary Trading, the Filipino way!

[Verse 2 – Sophomore & Junior]

Now we dive in charts, the candlesticks call
Support and resistance, we read it all
Patterns, indicators, breakouts ahead
Sophomore power, full speed ahead

Then comes the news — the macro view
Rates, CPI, and what they do
Junior minds think globally
Trading with fundamental clarity

[Pre-Chorus]

We study the why, not just the how
Applying the bias, we're in it now
Every candle, every play
Still trading the legendary way

[Chorus]

This is our time, we're ready to play
Turning passion to profit in a powerful way
From Freshman to Senior, we're paving the way
Living the dream — the legendary way!
Educating every home, changing every day
Financial freedom for Filipinos, come what may
Oh-oh-oh, we rise, we stay
Legendary Trading, the Filipino way!

[Tagalog Bridge – Heart of the Mission]

Sa bawat tahanan, liwanag ang hatid
Financial education, 'di lang panaginip
Bawat Pilipino, may pag-asa ngayon
Sa LTA, sabay-sabay tayong babangon

[Breakdown – Mission Highlight]

Not just for profit — it's purpose, it's flame
We teach and uplift, not just play the game
A mission to build, a vision so bright
For every Filipino, financial light

[Final Chorus]

This is our time, we're ready to play
Turning passion to profit in a powerful way
From Freshman to Senior, we're paving the way
Living the dream — the legendary way!
Educating every home, changing every day
Financial freedom for Filipinos, come what may
Oh-oh-oh, we rise, we stay
Legendary Trading, the Filipino way!

We Trade

(Verse 1)

We are the builders of tomorrow's way,
Past mistakes won't make us sway.
No present fears, no future doubt,
We know what trading's all about.

(Pre-Chorus)

Every loss, a step to climb,
Every fall just sets the time,
For fear to fade, for dreams to grow,
For courage deep inside to show.

(Chorus)

We trade fear for courage, doubt for belief,
We trade short highs for long relief.
We trade comfort for the chance to rise,
We trade small dreams for bigger skies.
We trade hesitation for bold desire,
Confusion turns to a clear-lit fire.
We trade excuses for ownership's call,
At LTA — we rise, we stand tall!

(Verse 2)

We trade quick wins for lasting gain,
Trade the sunshine and the rain.
Trade distraction for laser focus bright,
Trade watching for action, day and night.

(Bridge — Tagalog)

Para sa mga araw na malayo sa mahal sa buhay,
Nagpupuyat, nagtitiis, para lang may maipadala sa bahay.
Sa gising na maaga, uwi na dis-oras ng gabi,
Nakatali sa oras, sa sahod na 'di sumasapat lagi.

Pero ngayon, natututo tayong lumaya,
Magtrabaho hindi lang para sa kita.

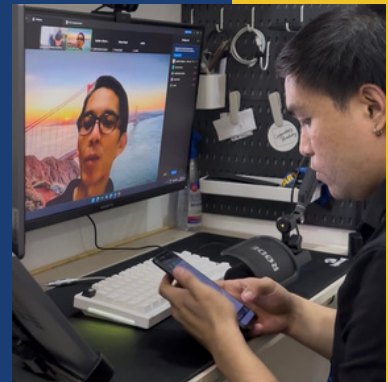

Sa LTA, sabay tayong aahon,
Hanggang sa oras na tayo'y magkabuhayan nang tuluy-tuloy at walang baon.

(Final Chorus)

We trade fear for courage, doubt for belief,
We trade short highs for long relief.
We trade comfort for the chance to rise,
We trade small dreams for bigger skies.
We trade hesitation for bold desire,
Confusion turns to a clear-lit fire.
We trade excuses for ownership's call,
At LTA — we rise, we stand tall!

(Outro)

Here at Legendary Trading Academy,
We don't just trade charts, you see...
We trade to change lives, to break every chain,
To build our future, and wear our name.
LTA — we rise, we reign! 🎵
